

**GEOLOGIST I, P. Geo  
VARIABLE CONTRACTS**

**ABOUT US**

Dahrouge Geological Consulting Ltd. is a North American mining and mineral exploration consulting company headquartered in Edmonton, Alberta; we provide professional expertise in geological exploration, project management and mining operations services over a wide variety of commodities and through all stages of a project's life.

With unwavering commitment to our team and the people we work with, our company is proud to offer competitive wages, excellent career development opportunities, and the possibility to join our growing team as we continue to serve our clients throughout Canada.

**POSITION SUMMARY & QUALIFICATIONS**

Our team is currently seeking Geologists based in Edmonton, AB to support ongoing and upcoming projects throughout eastern Canada.

Reporting to a Senior Geologist, the Geologist will carry out or assist on various exploration and/or mine site activities including drill core/chip logging, geologic mapping, cross-section creation and interpretation, drilling operations, surface sampling, and geophysical ground surveys.

The ideal candidate will have prior industry or academic experience in ore deposits, mineral exploration, and/or hard rock mining. Candidates should be confident with the identification and description of various rocks, minerals, alteration and mineralization styles, possess exceptional geologic observation skills, and be a motivated and self-reliant individual with an exemplary attitude towards safety, ethics, and corporate responsibility. Ideal candidates will hold the following qualifications:

- Be a registered Professional Geoscientist (P. Geo.);
- Based in or in proximity to a metropolitan or regional Canadian hub;
- B.Sc. or M.Sc. in Geology / Earth Sciences from an accredited University;
- 3-6 years of mining / exploration experience;
- Exceptional verbal and written communication skills;
- Exceptional proficiency with Microsoft Office suite;
- Familiarity with ArcGIS, QGIS Leapfrog Geo, MineSight 3D, Datamine, Vulcan and/or GEMS considered a strong asset;
- Demonstrated understanding and application of best-practice ethics and technical standards;
- Experience working on exploratory drilling programs is considered a strong asset;
- Ability to lift and carry up to 60 lbs as needed and possibly on a regular basis;
- Comfortable and equipped to work in extreme weather conditions;

**REQUIREMENTS / RESPONSIBILITIES**

- Assisting with program planning and project operations;
- Support ongoing exploration programs or mine operations;
- Ability to travel and work variable rotating schedules, per client and/or project needs;
- Ability to work in a fast-paced and dynamic environment;
- Ability to adhere to and promote company and client Health, Safety, and Environmental protocols;
- Ability to work in a collaborative team setting with a positive and proactive attitude.

Interested candidates should submit an updated resume, cover letter, and anticipated date of availability to and [careers@dahrouge.com](mailto:careers@dahrouge.com) with "P. Geo. Application" within the email header.
